LIFER[®]

Longability & Profitability

Liquid Feed Supplement With Iron, Calcium, B-complex, Liver Extract & BIOTIN

Nutritional value of each 30 ml.

Ferrous gluconate	280mg	Vit. B ₁	5mg
Calcium Lactate	300mg	Niacinamide	50mg
Biotin (Vit. H)	100 mcg	Vit. B ₁₂	10 mcg
Vit. B ₂	5mg	<small>(equivalent to B₁₂ activity available from 1.67 ml of Liver extract)</small>	

BIOTIN is a functional constituent of various enzyme system necessary to prevent fatty liver & kidney syndromes. It also controls dermatitis affecting bottom of feet, corners of mouth & edges of eye lids. Biotin prevents perosis in chicks & improves hatchability.

Salient Features:

- Lifer is essential for growth, erythropoiesis and to activate co-agulation factor.
- Lifer is an important supportive prescription in the treatment of LIVER FLUKE infestation.
- Lifer plays improvement role in carbohydrate, fat & protein metabolism.
- Lifer helps neuronal membrane synthesis & integrity.
- Lifer is essential for synthesis of principal neurotransmitter i.e. acetyl choline.

Indications :

- Anaemia, anorexia & cessation of growth
- Loss of hair, diarrhoea & muscular weakness
- Prevention of rickets & osteomalacia
- Circumoral skin lesion & excessive lacrimation
