

CALFOSVET®

Performance Enhancer For Better Growth & Productivity

Requirement of calcium & phosphorus is more during production, reproduction & growth. Extra calcium & phosphorus is required from outside source for skeletal development in pregnant & growing animals & in layers for egg shell formation. Additionally vitamin D₃ is also required for proper utilization of calcium and phosphorus.

CALFOSVET

CALFOSVET®
Performance Enhancer For Better Growth & Productivity

UNIQUE FEATURES:

- ▶ Calfosvet provides optimum amount of calcium & phosphorus for faster growth and skeletal integrity
